HARSHA MR

B.E. Computer Science & Engineering | 3rd Semester

9482589549 | harshagowdamr14@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science & Engineering student with a 9.44/10 CGPA and hands-on experience in software, AI-oriented projects, Android development and hackathons. Strong foundation in Java, Python, C and C++, with a focus on building practical solutions, problem solving and continuous learning.

EDUCATION

Malnad College of Engineering, Hassan | B.E. Computer Science & Engineering

3rd Semester | CGPA: 9.44 / 10

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++

Web Development: HTML, CSS

Android Development: Kotlin, Android Studio, Jetpack Compose

AI / ML: Machine Learning fundamentals, Generative AI concepts

Database / Backend: MySQL, Firebase

Tools: Git, GitHub, VS Code

PROJECTS

Artisan AI — AI-Driven Market Linkage & Smart Cataloging | *Smart India Hackathon 2026 | SIH26090 | Team Techno Verse*

- AI-assisted platform that analyzes artisan product images and generates product descriptions and catalog information.
- Provides AI-based price prediction while allowing artisans to decide the final selling price.
- Includes voice-based assistance to improve accessibility and product interaction.

Phantom Rescue Mesh — Decentralized Emergency Communication System

- Designed an emergency communication solution for situations where conventional network connectivity is unavailable.
- Features SOS alerts, GPS location sharing, emergency notifications and Bluetooth-based offline communication concepts.
- Includes victim/rescuer workflows with an Android application and web dashboard.

AI Chat Bot — IGNITE: Idea to Proto 2.0 | *Winner | ME-RIISE Foundation, Malnad College of Engineering*

- Developed an AI chatbot project for a college project expo and emerged as a winner.

Active Ghat Curve Warning System | *Innovation Design Thinking Project*

- Proposed an active warning mechanism to alert approaching vehicles about vehicle presence around blind/hairpin curves in ghat sections.

ACHIEVEMENTS & HACKATHONS

- Winner — IGNITE: Idea to Proto 2.0, AI Chat Bot, ME-RIISE Foundation, Malnad College of Engineering (2025).
- Smart India Hackathon 2026 — Participant in INFUSION 5.0 internal SIH selection process, Team Techno Verse.
- 24-Hour TECHNOTSAV Hackathon — Participant, IEEE Computational Intelligence Society collaboration (2026).

CERTIFICATIONS

- Web Development & GitHub — IUCEE EWB-MCE (Certificate of Completion).
- Claude 101 — Anthropic (Certificate of Completion).

AI/ML course certificate: pending
